▫ Computer Science

WORK EXPERIENCE

Internship at
TATOS Technologies Pvt Ltd

Achievements/Tasks
▫ Web/Mobile App Developer skilled in Flutter, Firebase, and data analysis. Experienced in responsive app creation and exploring new technologies for user-centered solutions.
▫ Gained practical experience in building cross-platform apps, implementing UI/UX designs, integrating Firebase, and managing app state using modern frameworks

Internship at
TECHMAGHI

Achievements/Tasks
▫ Gained hands-on experience in Python, data analysis, and machine learning through project-based learning.
▫ Built a Recommendation Engine using ipywidgets.

PERSONAL PROJECTS

Ride Sharing Application (12/2023 - 03/2024) ↗
▫ A user-friendly ride-sharing platform built with Flutter and Firebase, allowing users to offer or get rides seamlessly.

Movie Recommendation System (08/2023 - 12/2023) ↗
▫ Built a personalized movie recommendation system using Python and machine learning techniques. The system suggests movies based on user preferences and viewing history.

Event Management Application (02/2023 - 04/2023) ↗
▫ A Flutter app to create, view, and manage events. Users can sign in, explore nearby events, RSVP, and get updates in real time using Firebase and Google Maps.

ACHIEVEMENTS

5 star gold badge in programming in c on HackerRank coding platform

5 star gold badge in Python on HackerRank coding platform
